Intersection Improvement at Dundee Road and Elmhurst Road

CHICAGO – The Illinois Department of Transportation (IDOT) announced that lane closures will be necessary at the intersection of Dundee Road (Illinois 68) and Elmhurst Road (Illinois 83), in Wheeling, beginning, weather permitting, the week of April 18. The closures are necessary to make improvements to the intersection.

In order to complete the work, temporary lane closures will take place on Dundee Road and Elmhurst Road, when necessary. Businesses will remain open for the duration of the project.

The scope of the project consists of installing new traffic signals and adding turn lanes at the intersection. The overall improvements include new pavement, drainage structures and storm sewers.

The project is expected to be completed in Fall 2016.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
